

We're pleased to inform you that we'll be present as always at:

40^ MCE MOSTRA CONVEGNO EXPOCONFORT
15-18 Marzo 2016 - Fiera Milano Quartiere Rho

Hall 13 Stand L09-M10

We'll be glad to meet you a tour stand in order to check goals and results and to analyze new projects and products such as:

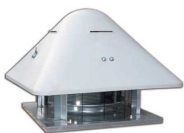

PLATE-M 806 and ROOF-CM 806

With these 2 new models with impeller of diameter 800 mm, with high airflow and high energetic efficiency, we expand further our range of axial wall mounted fans and centrifugal roof fan.

PLATE EC, ROOF EC, RING EC, DUCT EC, DIFFUSER EC

Series of fans with high efficiency and low energy consumption, equipped with permanent magnet motors electronically commutated.

DUCT-M HT

With the development of a new generation of impellers we further increase the already wide range of certified fans:

DUCT-M HT F400 (400°C/2h), F300 (300°C/2h), F200 (200°C/2h)

Now with diameters up to 1400 mm.

ECOM EC - ROOF - BOX eco-compatible series

- New series of heat recovery units with high efficiency according to regulation ERP 1253
- Series ROOF and BOX according to regulation ERP 1253

We're more and more a reference point in the market for the technological and normative updating of the products.

Will be available also in MCE 2016:

The new edition of ELEKTROVENT catalogue and selection program!

We look forward to see You!

Kindest regards,
Elektrovent srl
Marco G. Poggiato
