

We are pleased to inform you that as usual we will exhibit at:

Hall.13
Stand M09-
N10

4 years have passed since the last edition of the MCE, in the meantime we have developed new projects and products that we are looking forward to show you.

We therefore will be very happy to meet you in our brand new stand, to compare objectives and results and analyze new projects and products like:

ROOF-HM

New series of centrifugal fans having vertical flow and backward blades, with superior performance compared to common centrifugal fans.

They have been designed to convey air at a temperature of 120 ° C in continuous service (with peaks up to 180 ° C) and certified F400 (400 ° C / 2h).

HT 

DUCT-M-HT / ROOF-AM-HT / CH-BOX HT / GSC

We have extended the already wide range of approved products for the extraction of fire fumes which also includes roof versions, direct and bel coupled boxes, GSC circular shutters up to a diameter of 1400 mm.

F400 (400°C/2h), F300 (300°C/2h), F200 (200°C/2h).

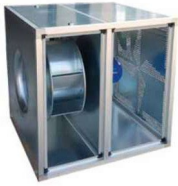

HT 

ROOF-CM-HT / ROOF-CMV-HT (new version)

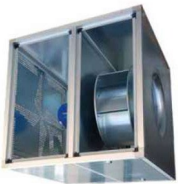

We have completely renewed the centrifugal roof fans, in the versions with horizontal and vertical flow, F400 approved (400 ° C / 2h) improving efficiency and competitiveness.

HT 

AC-BOX

New series of cabinet centrifugal fans characterized by a backward curved bladed impeller directly coupled to high efficiency motor.

CHEF-BOX

New series of boxed fans with motor separated from the air flow and backward curved bladed impeller to be used in professional kitchens or industrial plants in the presence of high temperatures.

ELEKTROVENT SELECTOR

The new fan selection program for the various applications will be available at the fair:

Standard, Atex, Fire smoke extraction, Anti-corrosion etc.

Software is very easy to use and characterized by very attractive graphics and accurate datasheets, providing dimensions, noise, efficiency, etc.

At the fair we will also show three new corporate videos sharing our history and our present.

We look forward to meet you at our stand to discuss and plan the future with you.

Best regards
Elektrovent srl
